cactaceae.

BK X SANIHARTO

Desert — A realm of extreme climate, antithetical to the sustenance of life, where the resilient cactus thrives. Its intricate structure, designed to withstand nature's harshest elements, reveals a true beauty.

EK × SANIHARTO

cactaceae.

Cacti manifest in a diverse array of shapes and sizes. Some boast thickened, succulent portions adapted for water storage, while others shed their true leaves, retaining only spines that have evolved from modified leaves. Additionally, cactus branches, known as areoles, give rise to tubular and multipetaled flowers.

Although the term "cactus" is sometimes misapplied to various spiny stem succulents, these plants are closely related. Generally, cacti possess few or no leaves.

Among the materials we employ for design development, bronze and brass hold great value. Not only are they durable and resistant to nature's forces, but brass is also renowned for its antibacterial properties, effectively disinfecting numerous types of bacteria within 8 hours.

Natural stone, often referred to as marble, is an integral part of our collection. Symbolizing opulence, solidity, and strength, its creation mirrors the evolutionary process of the cactus spanning millions of years—from leaf to thorn and the thickening of stem walls, all to minimize moisture evaporation stored within.

With meticulous attention to texture and color, we carefully select materials that evoke a soft touch and yield excellent results. Tweed-textured fabric has been chosen to accentuate the distinct character of each piece, while the harmonious blend of colors unifies the collection.

This amalgamation of organic and non-organic elements culminates in our "Cactaceae Collections," a series of loose items that embody the essence of these resilient plants.

Desert Mirage

The first realm is a desert mirage. where reality and illusion seamlessly intertwine amidst the arid expanse. Journey through shifting dunes and experience the mesmerizing dance of mirages. as ethereal visions emerge from the scorching sands. Immerse yourself in the captivating play of light and shadow. where shimmering illusions create an otherworldly atmosphere.

Sea Strand

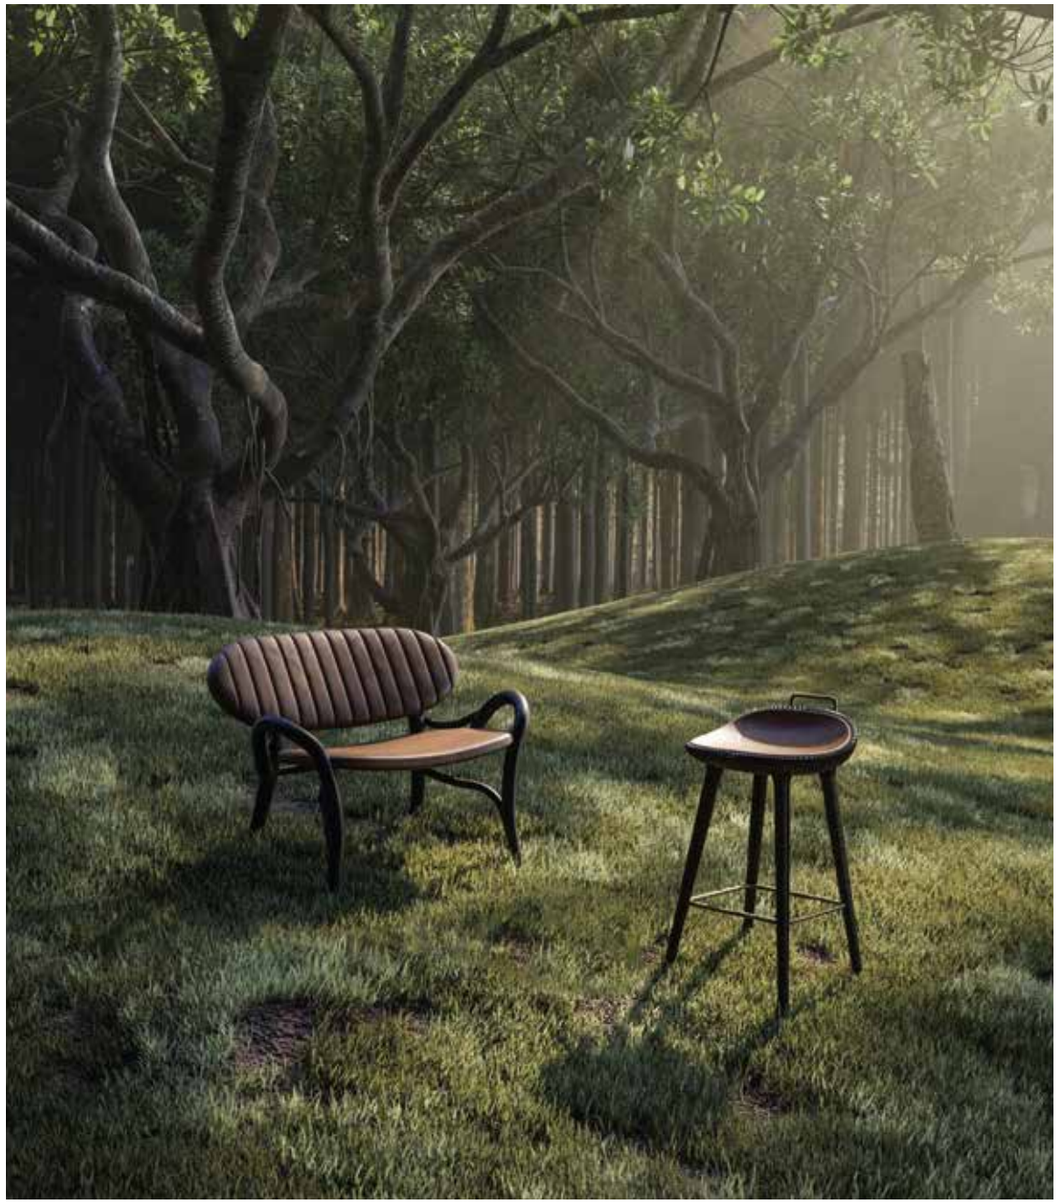
Realm of Sea Strand, a captivating fusion of two contrasting worlds—the ethereal allure of the sea and the resilient spirit of the cactus. In this enchanting domain, the sandy shores intertwine with arid landscapes, creating a harmonious synergy that embodies strength and tranquility.

Prairie

Here, amidst the rolling hills and expansive meadows, the resilience and adaptability of desert flora take center stage. Embrace the raw beauty of the prairie as it mirrors the arid expanse of desert terrains, offering a captivating display of hardiness and endurance. Witness the dance of prairie grasses, swaying in harmony with the wind, reminiscent of the tenacity of desert plants that flourish against all odds.

Monsoon Forest

In this extraordinary realm, the resilience of desert flora meets the exuberance of the monsoon season, creating a harmonious tapestry of life and growth. Traverse through canopies of emerald-green foliage, while vibrant blossoms punctuate the forest floor, reminiscent of the tenacious desert plants that adapt to survive both aridity and abundance.



Twilight Bloom

Twilight Bloom, where the ethereal beauty of cacti dances under the vibrant hues of the aurora, amidst majestic mountains. As twilight casts its gentle glow, the resilient spirit of the cactus comes to life, embellishing the landscape with its unique forms and intricate details. Against the backdrop of towering peaks, the cacti bloom in splendid harmony, their vibrant flowers and spines illuminated by the mesmerizing colors of the aurora borealis.

Optuna

COFFEE TABLE

Drawing inspiration from the fundamental structure of the cactus, we have incorporated its design elements into the captivating shape and textures of the legs, serving as the defining feature of this collection. To accentuate balance and a sleek aesthetic, we have included the option of a dual-layered flat surface for the tabletop. By combining the use of exotic marble and a metal leg finish, we aim to evoke the untamed essence of the desert's wild and unforgiving climate, reflecting the uncertainty of desert life.

Cereus

END TABLE

The intricate carved details that comprise the foundation of our collections are derived from the organic contours found within the original strokes of the cactus's body. It is within the imperfections of these forms that a unique and exquisite perfection emerges. The incorporation of the cactus's arm serves a dual purpose, serving not only as a complement to the overall beauty of the design, but also as a functional element, enhancing the practicality and utility of the piece.

LOUNGE CHAIR

Succulents, renowned for their ability to retain water in arduous environments through the thickening and fleshy engorgement of their plant parts, have inspired our innovative approach in designing the back and seat base of our lounge chair. By simplifying and reimagining these succulent characteristics into a substantial section, we have seamlessly integrated them into the chair's structure. To further enhance the connection to the cactus's essence, we have carefully selected a leather material that emulates the tactile surface of the actual plant. Deliberate adjustments have been implemented to prioritize the utmost comfort for the user, ensuring a harmonious balance between aesthetics and functionality.

Astro

SOFA

Regarded as a living rock due to its gradual growth pace, which spans several years to achieve its ultimate potential within its native ecosystems, we have sought to cultivate this remarkable essence within our collection, specifically in the form of a modular sofa. By harnessing the adaptability of this concept, we have crafted a versatile seating solution that allows for an array of configurations, empowering individuals to customize their arrangement according to their unique preferences and spatial requirements.

EXTENSION TABLE

The complementary piece within our comprehensive collection, particularly designed to harmonize with our modular sofa line, is a simple yet highly functional item that offers generous space to cater to a multitude of requirements. Its versatile nature allows for flexible positioning, seamlessly adapting to the specific needs and configurations of the corresponding modular sofa ensemble. With careful consideration given to both aesthetics and practicality, this item effortlessly complements the overall design and enhances the functionality of the modular sofa collection.

DINING TABLE

The forceful tension evoked by the strong lines that traverse the body, reminiscent of the robustness and resilience of the cactus, has been deftly reimagined with meticulous refinements evident in the final outcome. The distinctive shape, reminiscent of the original plant, not only bestows a visual resemblance but also imparts inherent strength to the design. Additionally, intricate decorative ornaments and precise structural calculations have been thoughtfully incorporated to yield exceptional results, both in terms of functionality and aesthetics, ensuring an exquisite appearance that captivates the eye.

COUNTER STOOL

The exquisitely crafted grooves, inspired by the refined textures found in cactus plants, adorn the legs of this stool, adding a touch of sophistication to its design. Attention to detail is evident in the precise measurements and ergonomic adjustments made to the seat, ensuring optimal comfort for the user. Convenience and ease of use are further enhanced by the inclusion of pull handle details discreetly positioned on the back of the counter stool, as well as the addition of a footrest, providing seamless accessibility and further enhancing the overall functionality of the piece.

LOUNGE CHAIR

Embracing the essence of the cactus, the lounge chair is adorned with cactus arm-inspired elements, introducing a unique and captivating dimension to this collection. The chair stands confidently on four legs, each meticulously carved with intricate details, complemented by horizontal belt ornaments adorning the backrest. With meticulous consideration, a fabric of utmost quality has been carefully chosen, offering a juxtaposition of both durability and softness, creating a harmonious balance. The robustness of the sturdy legs provides unwavering support, while the plush seat and backrest, meticulously designed to conform to body contours, offer a level of comfort that is truly exceptional. The careful fusion of these elements results in a chair that exudes both strength and inviting coziness, a testament to its impeccable design.

Scopa

ACCENT CHAIR

In this piece, a diverse array of harmoniously blended materials and textures create a captivating visual experience. The subdued tones and comforting upholstery converge with the understated elegance of three simple chair legs. Notably, the rear leg showcases distinct details, providing sturdy support to the back seat. This creation strikes a flawless equilibrium between exquisite design and practical functionality.

530 mm x 530 mm x 750 mm

Fabric, Wood

Cholla

CONSOLE TABLE

Drawing inspiration from the visual concept of a split block of wood, we have transformed this imagery into the creation of a unique console table. By skillfully merging the split wood motif with carefully designed leg details, we have achieved a seamless and harmonious aesthetic that enhances the overall appearance of the table. Furthermore, the material selection process has been conducted with precision to ensure that the final result closely emulates the organic essence of the original inspiration, further accentuating the authenticity and captivating charm of the piece.

1800 mm x 430 mm x 850 mm

Saba

STOOL

The graceful strokes, mirroring the elegant curvature of the cactus body, have been meticulously accentuated with intricate details, lending an endearing charm to the stool without compromising its functionality. Additionally, the deliberate selection of tweed fabric imparts a sense of opulence and refinement, elevating the overall aesthetic appeal of the stool while ensuring utmost comfort during use.

dia. 450 mm x 400 mm

Fabric, Wood

Carnegia

DINING CHAIR

The embodiment of sturdiness, tenacity, and resilience, reminiscent of the trials faced in challenging climates, is exemplified through the rear support leg meticulously crafted from metal—an exceptional material known for its unrivaled strength and durability. This element, carefully refined, harmoniously combines with the thoughtful selection of high-quality fabric to enhance both visual appeal and comfort. Furthermore, the inclusion of wood as a complementary material establishes a meaningful correlation with the earth, symbolizing our intrinsic connection to the very environment in which we dwell.

542 mm x 555 mm x 685 mm

Fabric, Metal, Veneer

Pacha

CONSOLE TABLE

In a symbolic tribute to the ephemeral nature of life's journey, the striking black hue of the table evokes the essence of decay, mirroring the transformative cycle experienced by all living cacti. Transcending mere functionality, this console table emerges as a testament to opulence, meticulously designed to exude an air of luxury. The legs, inspired by the graceful silhouette of columnar cacti, are expertly crafted with unparalleled precision, seamlessly blending artistry and craftsmanship. Carefully selected wood serves as the medium for this exquisite creation, further enhancing its organic appeal and imbuing it with a timeless allure that beckons contemplation and admiration.

1600 mm x 500 mm x 780 mm

Fabric, Metal, Veneer

The Cactaceae series represents an extraordinary fusion of artistic vision and skilled craftsmanship. Each piece is meticulously designed and crafted by the hands of talented artisans who pour their passion and expertise into every detail. From the intricate wood carvings and expertly executed woodwork to the masterful metalwork, delicate fabric and leatherwork, and impeccable stone masonry, each element is seamlessly integrated to create a stunning work of art in the form of furniture. Each piece in the Cactaceae series has a unique narrative to share, capturing the essence of its creation and the inspirations that brought it to life. With their exceptional beauty and storytelling capability, these furniture pieces become more than just functional objects; they become heirlooms that carry the legacy of craftsmanship and artistic expression, connecting people to the rich heritage of human creativity.

Budi Kurniawan

Budi Kurniawan, founder and design principal of BK studio, is one of the Indonesian young and passionated designers that always brings stories to tell in the projects as his unique approaches have been profoundly shaped by his upbringing and immersed in the rich tapestry of Indonesian folklore. Influenced by the amalgamation of Chinese and Indonesian cultures, his design sensibilities embrace a fusion of textures, geometry, and patterns.

After earning a Bachelor of Architecture from Petra Christian University, Budi embarked on his professional journey as an export marketing and project manager for a furniture manufacturing company in Surabaya. Engaging in diverse projects ranging from retail spaces to high-end luxury residential and hotel designs, his talent and dedication caught the attention of an esteemed American furniture brand, resulting in commissioned collections showcased at the Las Vegas Furniture Fair.

In 2001, Budi ventured into the realm of interior contracting and custom furniture, honing his skills for five years before realizing his true passion as a designer in 2006. That year marked the commencement of his first high-end private residential project, cementing his path as an interior designer.

Driven by his vision and expertise, Budi founded BK Interior Design & Architectural Planning in 2008 (nowadays is BK studio), establishing a studio that epitomizes his design philosophy.

At BK studio, the belief resonates that exceptional design emerges from profound contemplation and an extensive exploration process. The team takes responsibility in crafting diverse, soothing, and exhilarating designs that flawlessly meet functional requirements. Their approach is deeply rooted in understanding and embracing multiple perspectives from clients, as they have been involved in a wide range of projects, spanning private residential spaces, hospitality venues, retail establishments, commercial properties, and places of worship. Striving for an ideal equilibrium, they deftly blend classic Oriental elements, modern artwork, and cutting-edge technology to unlock the maximum potential of each project. Through a meticulous combination of these elements, they create a unique and cohesive design that transcends expectations.

Above all, Budi and his team deeply appreciate and honor their own culture, viewing it as both a privilege and an honor to contribute to making the world a better place, albeit in a humble manner.
